The Hospital Housekeeping Series Maintaining Floors: Stripping

Environmental control specialist Jane Parker shows maintenance people how to properly and successfully complete "stripping" of vinyl floors. She identifies all necessary cleaning implements, describes strategies necessary for difficult cleaning problems, and explains completion procedures. A video tape of a hospital worker stripping a floor vividly illustrates this informative program.

A selection of video tapes on hospital maintenance

Principles of Sanitation

Environmental control specialist Jane Parker tells housekeepers how to maintain a safe, sterile, aseptic environment in the hospital. Dr. Parker describes the most common modes of bacterial transmission, the conditions that affect the growth and multiplication of bacteria, and the most effective methods for controlling these toxins. She discusses the efficacy of heat sterilization, ultraviolet light, and chemical disinfectants. Proper usage of cleaning implements and solutions as well as personal hygiene are included in this informative lecture.
