

Learning Resources

Management Of Dental Trauma In Children Vol. 1.6

The Cardiosat Series

A leading dentist outlines incision site selection and suture techniques for three preprosthetic periodontal therapies designed to aid in : The placement of a crown on upper central incisors, the installation of a bridge placed on all lower remaining teeth, and the treatment of an amalgam tattoo on labial gingiva over the maxillary right central and lateral incisor teeth. This presentation includes excellent illustrations and videotaped surgery footage.

Post Secondary - Advanced, Adult, Professional
30 minutes, order 1-3875-IN

A selection of video programs for dental students

Smile (Dental Hygiene)

Goodbodies Series

Learn good dental hygiene. Visit a pediatric dentist and travel to a toothbrush manufacturing company to learn how toothbrushes are made.

See ancient teeth cleaning devices and finish up at the zoo with Norman the Sea Lion as he gets his teeth brushed.

Early Years, Ages 6 to 8
15 minutes, order 5-4920-IN

Tooth Bonding

The Looking Good Series

Tooth bonding can remedy a variety of dental problems and cosmetic concerns.

Dentists from the UCLA School of Dentistry describe the various materials and procedures that can be used for tooth bonding. Special attention is paid to the advantages and disadvantages of two bonding techniques: direct bonding and laminate veneers.

This program is thoroughly illustrated with "before and after" photographs and includes testimonials from bonding patients.
